## Reference Letter

15.01.2010

Founded in 1975, Corporation Microsoft is considered to be the world leader in producing of the computer software, developing information technologies and providing services for personal computers and servers.

In 2002 there was an office established in Almaty, Kazakhstan, the purpose of which is to develop the software market and to introduce the newest technologies on the territory of Kazakhstan, Turkmenistan and Uzbekistan.

Over the past year, we have worked with Scot Holland | CB Richard Ellis on numerous requests regarding lease of commercial and residential properties. Their professional services and efficient work are top-notch and we have been very pleased with the work they've done for us.

Our company trusted Scot Holland | CB Richard Ellis with accommodation of our employees and believe that their services made the process convenient, quick and effective. As far as a company to do business with, Scot Holland | CB Richard Ellis is one of the best Real Estate Agencies that we have ever dealt with.

Through the years, Scot Holland | CB Richard Ellis has been on time and on budget with the property offers for our company. I recommend them without hesitation and would hire them again if given the opportunity.

Sincerely,

Gunter Dahm  
General Director
